

Arlene Stearns

Look Like A Leader to Get Paid Like One

Arlene has a great, natural ability to work with people not only with style and clothing but with their self-image, especially regarding professional life. Before I worked with Arlene, I had a very low self-image that was affecting my professional life as a leader in my company. Just a simple wardrobe refresher along with advice on what flatters me made an enormous difference in how I see myself and in how others see me. I thank Arlene for her time and work and for caring for me as a person, not just a customer.
